

City of Irrigon Offers Average (Flat) Billing

In today's fiscal environment it is easier knowing what bills are due and how much. The City of Irrigon is offering a program that will allow customers to better manage their monthly budgets. Why not pay the same every month with Average Billing.

What is Average Billing: The Average Billing plan allows members to pay the average of the past 12 months of usage. An estimated annual bill is divided by 12 months to calculate the initial monthly budget bill amount, which is subject to adjustment. This option is perfect for people who don't want to guess what their monthly payment will be and it eliminates large fluctuations between winter and summer bills. It's an amount customers can count on when doing their home budget planning.

To see if you qualify or for more information please contact City Hall at 541-922-3047 or manager@ci.irrigon.or.us
